Work Experience

GrensaAI

Remote

Full Stack Web Engineer Intern — *Aug. 2025 – Dec. 2025*

- Developed frontend and backend features across a Chrome extension product, with a stronger focus on the frontend using React
- Built the Tone of Voice feature end-to-end, using the OpenAI API to rewrite user text according to company policy extracted from a knowledge base
- Integrated the feature directly into textareas in the main UI, which made it one of the most frequently used features and a consistent source of user feedback
- Contributed backend fixes in Express.js and Python services for an AI-powered API
- Served as the first responder for a highly experimental product and helped maintain 99.9% uptime
- Worked in a 2-developer team alongside the lead developer
